Conclusion

CGL the holding company with its new division has prestige and excellent credentials due to 8 years of experience in Tete province as a service provider in the mining industry.

Both strategic partners have merged their experience and successfully achieved targets on previous and ongoing contracts, keeping the business community satisfied.

We currently approved a new CAPEX in order to expand all operations but focussing on CRUSHING and SCREENING of aggregates in all Mozambican territory to meet current demands and country development.

Our team is committed and on constant training to keep delivering the best services in the industry and seeking for new and challenging projects and opportunities all over the country.
